filtering solutions

filtri motore

www.industriesoffio.it

Le industrie soffio si presentano al mercato come realtà giovane e dinamica, i soci che la costituiscono sono da anni una realtà consolidata nel campo della filtrazione industriale e portano la loro competenza e le evolute tecnologie costruttive al servizio del mercato aftermarket automobilistico, riversando costantemente nei propri prodotti la conoscenza acquisita in svariati campi.

Prendendo come base gli standard di qualità imposti dalle case automobilistiche per i loro prodotti, le industrie soffio realizzano filtri abitacolo ai massimi livelli qualitativi. Le nostre linee in fibra e in carbonfibra coprono vastissima gamma dei veicoli, perfettamente compatibili con i filtri originali.

La protezione dall'inquinamento atmosferico è ormai diventata una priorità, come concordano ormai tutti gli specialisti del mondo, non solo per il disagio che si percepisce a causa dei cattivi odori o delle polveri, ma soprattutto per i seri danni alla salute che questa continua contaminazione comporta.

I filtri di industrie soffio offrono, a tutela del conducente e di tutti gli occupanti del veicolo, una formidabile barriera contro pollini, polveri, particolati di combustione, benzene, cadmio e altri agenti inquinanti.
